

# Ethical issues:

## User data & privacy:

- Data might be stored insecurely.
- Collecting more data than necessary
- The user must know and agree to share data for analytics, if needed.

## Copyright issues and ownership:

- Copyrighted recipes and reusing recipes without permission
- Users might share recipes without crediting the contributor.

## Health & safety:

- Users might not specify allergens.
- Excessive use of alcohol without warning
- Unsafe cooking instructions

## Misinformation & Trust:

- Misinformation on prep time or ingredients needed
- Not using the right allergens or dietary restriction labels.
- Wrong nutrition information
- Fake reviews and ratings

## Cultural appropriation & Inclusivity:

- Mislabeling cultural recipes
- Miscategorising different cultures under one label

## Moderation and community safety:

- Harassment and toxic behaviour in comments
- Shaming people or their culture
- Bullying

## Accessibility:

- Poor navigation
- Complex UI that doesn't serve the purpose
- Readability
- Accessibility for users with disabilities
- Not being accessible to users who don't speak English.
